Your Dollars at Work Lifting Up Our Communities

"United Way removed the financial burden on my family, allowing me to pursue a different career path for our future." - EMT program scholarship recipient

"I know I deserved better. Being on the street, that's not me." - formerly homeless individual upon moving into his own apartment

"This is amazing. I didn't feel that I was benefiting from phone therapy. I like it when we can see each other." - individual able to access mental health services via tablet due to lack of transportation

UWGPC is committed to diversity, equity, and inclusion.

United Way of Greater Plymouth County celebrates diversity among the people we serve and those who serve them. We acknowledge a history in this country where harm, cruelty and injustice were inflicted on people because of their race and ethnicity and we understand that this persists today. We denounce racism and oppression in all their forms. We will work together with our neighbors from diverse backgrounds in greater Plymouth County as equal partners to identify and understand their specific and unique needs, and we will generate resources to meet those needs. We make this pledge as part of a long term commitment to co-creating meaningful and lasting change with the communities in which we serve.
